Market overview of Cambodia

Export: As part of rapid development of Cambodia as well as the growth of its economy with strong export of garment apparel, footwear, hand bags, furniture to USA, EUROPE and Asia Markets, particularly the steady export volume of agricultural products including Rice, Corn, Cassava Chip, Dry Rubber etc. We see the demand of logistics service is boosting, our cargo volume grew substantially in last 2 years for Cambodia.

Import: With the strong and continuously development of the country itself, infrastructure building all over the places in Cambodia. There are opportunities for us to participate in facilitation of logistics handling of those import construction materials and equipment, as well as to handle those imports of raw materials shipping to the local manufacturers.

Based on the facts mentioned, we decided to have our own office in Kingdom Of Cambodia.
